

RELTECH

MODEL Benchtop 12540TH

A general-purpose bench top chamber designed for Temperature/humidity testing of PCB's and small assemblies.

Supplied complete with floor stand

Specification

	<i>W (mm)</i>	<i>H (mm)</i>	<i>D (mm)</i>
Internal dimensions	480	500	500
External dimensions (max.)	750	1940 (with stand)	1080
Operating temperature range	+150°C maximum -40°C minimum		
Thermal ramp rate (empty)	Cooling 2.8°C/min Heating 7.3°C/min		
Humidity	No longer fitted		
Temperature control	Programmable cyclic controller		
Rated voltage	415V AC 3-phase		
Rated maximum current	25 amps		
Cooling	Integral, single-stage air-cooled compressor		
Nominal chamber weight	200 Kg		
Airflow	Ducted, forced air (front to back)		
Features:	Product protection 2off 50 mm dia cable ports (1 each side) Chamber stand with lockable castors
